

# Ajinkya Bhole

Motion Control Design & System Dynamics Enthusiast

[Website](#) @ [ajinkya.b33@gmail.com](mailto:ajinkya.b33@gmail.com) [Eindhoven, NL](#)

## System Identification, Analysis and Parameter Estimation

## Spectral Analysis

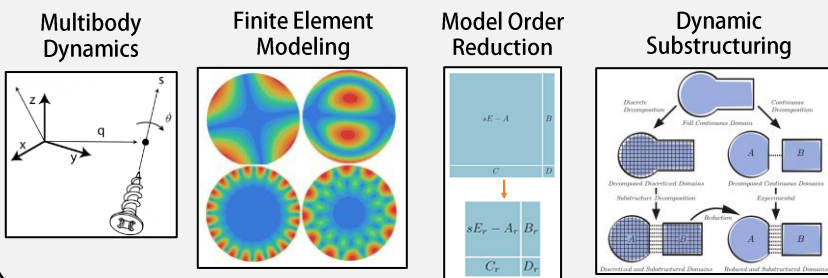

## Sensing Strategy & Sensor Selection

## Programming & Tools

## Modeling and Simulation

## Trajectory Generation

## Dynamic Error Budgeting

## Controller Design

## Actuation Strategy & Actuator Selection

## Courses and Trainings

Dynamics and Modeling  
(High Tech Institute 2022)

Mathematical Modeling of  
Systems (DISC 2023)

Nonlinear Control for Performance  
(DISC 2023)

HEEDS: Design Exploration and Optimization  
(Siemens 2023)

Learning and Adaptive Control  
(DISC 2022)

Nonlinear Control Systems (DISC 2023)

Design Methods for Control Systems  
(DISC 2023)

Design Principles for Precision Engineering  
(High Tech Institute 2024)

## Education

- 2016 - 2018 MSc. in Systems and Control University of Twente, The Netherlands ([Courses](#)) GPA: 8.2/10
- 2018 MSc. Honours in Design University of Twente, The Netherlands
- 2012 - 2016 B.E. Hons. in Mechanical Engineering BITS Pilani – Pilani Campus, India GPA: 7.9/10

## Publications

- Online Estimation of Impedance Parameters for a Variable Impedance Controlled Robotic Manipulator.  
A. Bhole, F. Ficuciello, A. Mashayekhi, S. Strano, M. Terzo, L. Villani, B. Sciciliano (IFIT 2018) ([Link](#))
- Control of a Variable Stiffness Joint for Catching a Moving Object.  
A. Bhole, J. Kumle, S.S. Grothuis, R. Carloni (IROS 2018) ([Link](#))
- Design of a Robust Stair Climbing Compliant Modular Robot to Tackle Overhangs on Stairs  
A. Bhole, S.H. Turlapati, V.S. Rajashekhar, J. Dixit, S.V. Shah, K.M. Krishna (Robotica 2018) ([Link](#))

## Thesis

- [Masters Thesis](#): Towards KriCatch, A Slip Catching Practice System for the game of Cricket  
Advisors: Douwe Dresscher, Stefano Stramigioli (RAM Lab, University of Twente, The Netherlands)
- [Bachelors Thesis](#): Design of a Robust Stair Climbing Compliant Modular Robot to Tackle Overhangs on Stairs  
Advisors: Suril V. Shah, K. Madhav Krishna (Robotics Research Center, IIIT Hyderabad, India)

## Work

Feb 2019  
Present

System Engineer within Drive and Controls Group ([Projects](#))  
Sioux Technologies B.V. Eindhoven, The Netherlands

- Facilitating development of multidisciplinary systems through Systems Engineering Process.

Systems Thinking

Concept Design Studies

Modeling and Simulation

System Budgeting

Control System Design and Implementation

Testing, Verification and Validation

July 2017  
Dec 2017

Research Intern

PRISMA Lab University of Naples Federico II, Naples, Italy  
With Fanny Ficuciello, Luigi Villani and Bruno Sciciliano

- Realized Variable Impedance Control for a robotic manipulator (KUKA LWR) and ensured task stability using *energy-tanks*. ([Link](#))

Energy Tanks

Passivity-based control

Variable Impedance Control

Aug 2016  
Dec 2016

Research Assistant

RAM Lab University of Twente, The Netherlands  
With Raffaella Carloni

- Devised a control strategy, inspired by the natural mechanism of adjusting hand impedance to catch objects, onto an arm actuated by variable stiffness actuator. ([Link](#))

Variable Stiffness Actuators

Optimal Control
